

Golden Bounty - Endorphina Seamless API Acceptance Test Report

Tool: endorphina-acceptance-test-2.9 | Suite: Base | API spec: Seamless v1.9.5
Callback URL: <https://ovyrljtgtviabkamomjso.supabase.co/functions/v1/endorphina>
nodeId: 8 (mock) | Test date: 2026-09-02 | Operator: Golden Bounty (golden-bounty.com)

Node configuration

Test steps

Total: 40 Successful: 36 Skipped (jackpot disabled on node): 4 Failed: 0

RESULT: PASSED - all applicable steps successful

Step	Result	Details
/check test	Successful	Successful
launch url	Successful	Successful
/session (launch)	Successful	Successful
/balance (launch)	Successful	Successful
/bet (round 1)	Successful	Successful
/balance (round 1 after bet)	Successful	Successful
/win (round 1)	Successful	Successful
/balance (round 1 after win)	Successful	Successful
/bet (round 2)	Successful	Successful
/bet (round 2 duplicate)	Successful	Successful
/win (round 2 zero win)	Successful	Successful
/balance (round 2 after duplicated bet)	Successful	Successful
/bet (round 3)	Successful	Successful
/refund (round 3)	Successful	Successful
/balance (round 3 after refund)	Successful	Successful
/refund (round 3 duplicate)	Successful	Successful
/balance (round 3 after duplicated refund)	Successful	Successful
/bet (round 4)	Successful	Successful
/win (round 4)	Successful	Successful
/win (round 4 duplicate)	Successful	Successful
/balance (round 4 after duplicated win)	Successful	Successful
/bet (round 5)	Successful	Successful
/win with jackpot (round 5)	Skipped	Disabled by node properties
/balance (round 5 after jackpot win)	Skipped	Disabled by node properties
/win with jackpot (round 5 duplicate)	Skipped	Disabled by node properties
/win (round 5 zero win)	Successful	Successful
/balance (round 5 after duplicated jackpot win)	Successful	Successful
/bet (round 6)	Successful	Successful
/win with jackpot (round 6)	Skipped	Disabled by node properties
/win (round 6)	Successful	Successful
/balance (round 6)	Successful	Successful
/bet (round 7)	Successful	Successful
/bet (round 8)	Successful	Successful
/win (round 7)	Successful	Successful
/win (round 8 zero win)	Successful	Successful
/balance (round 8)	Successful	Successful
/bet (round 9 all money)	Successful	Successful
/win (round 9 zero win)	Successful	Successful
/bet (round 10 insufficient funds)	Successful	Successful
/endSession	Successful	Successful

Notes

- Jackpot steps are skipped by the tool because `node.jackpotEnabled=false` on the mock node (not a failure).
- All money-moving callbacks are idempotent; duplicate bet/win/refund return the stored response.
- Insufficient funds -> 402, wrong signature -> 401, unknown token -> 404 verified.
